**SB-1234 AN ACT CONCERNING NONDISCLOSURE OF RESIDENTIAL ADDRESSES OF CERTAIN
PUBLIC OFFICIALS AND EMPLOYEES**

The Connecticut State Police Union supports this bill.

The proposed bill would clarify that the residential addresses of certain public officials and employees shall not be disclosed under any provision of the Connecticut General Statutes. The residential addresses of these public officials are protected from public disclosure pursuant to the freedom of information act as cited in Connecticut General Statutes 1-217. The statute protects law enforcement officers, among others, because of the work they do, and they should not be placed at risk of becoming potential victims of crime.

This change should have no effect on the town assessors and registrars.

Sincerely,

A handwritten signature in cursive script, reading "Andrew Matthews".

Andrew Matthews, Esq.

Connecticut State Police Union
